Regarding: Laboratory results (FFV00566)

Each year the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) delivers a number of programs related to food safety. One such program is the Food Safety Monitoring Program. As part of this program, samples of Ontario produce are collected from across the province and analyzed at the University of Guelph Laboratory Services for chemical residues and microbial contamination.

On September 13, 2017 a sample of your produce was collected and submitted for lab analysis. Laboratory results are indicated below for your records. If the results for a given compound were found to have exceeded Maximum Residue Limit set out by Health Canada, you would have been notified by phone at the time the results were available.

Sample Information:

OMAFRA Sample ID: FSM068035
Commodity Type: Apples / Apples
Collection Date: 09/13/2017
Collected From: Jess Madamba

| Type of Analysis | Results |
|--|---------|
| Campylobacter spp. Detection by Plate Culture | NEG |
| E. coli Count by Petri-film | <MDL |
| E. coli O157:H7 Detection by Gene Detection System | NEG |
| Salmonella spp. Detection by Plate Culture | NEG |
| Shigatoxigenic E.coli Detection by Polymerase Chain Reaction | NEG |

<MDL = Less than Method Detection Limit
TNTC = Too Numerous To Count
DET = Detected on Screen, Confirmations to follow

<MQL = Less than Method Quantification Limit
>ULQ = Above Upper Limit of Quantification
ND = Not Detected on Screen

Good Things
Grow in Ontario
À bonne terre,
bons produits

Please note the laboratory results reported in this letter were prepared for OMAFRA for use by its staff. The results are specific only to the sample collected and the purpose for that collection. Compliant results are not an endorsement by OMAFRA of the safety of the sampled product or any other commodities that you may produce that were not tested.

Attached is an infosheet describing in more details, information on the Ministry's Food Safety Monitoring Program.

If you have any additional questions please contact me at 1-888-466-2372 ext. 519 826 4532

Sincerely,

Linda Hill
Data and Issues Management Coordinator
